

RITESH KUMAR JHA

+91 9588499371 | jharitesh148@gmail.com | LinkedIn | GitHub | Thane, Maharashtra

Education

Universal College of Engineering & Technology

Mumbai, Maharashtra

Bachelor of Engineering in Computer Science & Engineering

Dec 2022 – May 2026

Experience

Frontend Developer

May 2025 – July 2025

10xGrowth

Remote

- Developed responsive web applications using React.js and Tailwind CSS, improving page performance by 30% through optimization techniques
- Collaborated with cross-functional teams of 5+ members to deliver 15+ features on schedule using Agile methodologies
- Implemented RESTful API integrations for real-time data synchronization, handling 1000+ daily active users
- Utilized Git for version control and conducted code reviews to maintain 95%+ code quality standards

Projects

CodeLive - Real-Time Code Collaboration Platform | *MERN Stack, WebSocket, WebRTC* | [Live Demo](#)

2025

- Engineered full-stack collaborative coding platform using MongoDB, Express.js, React.js, and Node.js with real-time features
- Implemented WebSocket (Socket.io) for real-time code synchronization enabling multiple users to code simultaneously
- Integrated WebRTC for peer-to-peer video calling and screen sharing functionality within coding sessions
- Built real-time chat system with message persistence in MongoDB, supporting 50+ concurrent users per session
- Developed secure authentication with JWT tokens and implemented room-based access control for collaborative sessions
- Optimized application performance achieving 99% uptime with WebSocket connection handling and error recovery mechanisms

EzyRide - Ride Sharing Platform | *React.js, JavaScript, CSS, REST API* | [GitHub](#) | [Live Demo](#)

2025

- Built end-to-end ride-sharing application with MongoDB database, Express.js backend, React.js frontend, and Node.js server
- Developed RESTful APIs handling user authentication, ride booking, and real-time status updates serving 100+ users
- Implemented live chat feature using WebSocket, OTP verification for secure authentication, and SOS emergency alert system
- Built dynamic fare calculator with distance-based pricing algorithm and real-time cost estimation for riders
- Implemented JWT-based authentication and role-based access control ensuring secure user data management
- Designed normalized MongoDB schema with indexing strategies reducing database query response time by 40%

Jha Projects - Full-Service Web Development Agency | *MERN Stack, Digital Services* | [Live Demo](#)

2025

- Founded and led full-service web development agency delivering professional digital solutions to local businesses
- Developed high-performance websites using MERN Stack (MongoDB, Express.js, React.js, Node.js) with responsive design
- Implemented business growth strategy with targeted marketing frameworks, offering 40% discounts and 1-month free service
- Delivered diversified services including custom web solutions, digital branding (logo design, SEO), and content strategy
- Built real-time applications with WebSocket (Socket.io) and WebRTC for enhanced user experience and collaboration
- Optimized database performance reducing query response time by 40% and improved frontend performance by 30%

Technical Skills

Programming Languages: JavaScript (ES6+), Java (Core), SQL

Frontend Technologies: React.js (Hooks, Context API, Redux), Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive Design

Backend Technologies: Node.js, Express.js, RESTful API Development, WebSocket (Socket.io), WebRTC

Database Management: MongoDB, Mongoose ODM, MySQL, Database Design, Query Optimization

Tools & Platforms: Git, GitHub, VS Code, Postman, NPM, Google Cloud Platform, Vercel, Netlify

Core Competencies: MERN Stack Development, Real-Time Applications, API Integration, Problem Solving, Agile Methodology

Certifications

IBM Watson - Text to Speech - Completed IBM certification on digital voice technology and AI-powered speech synthesis

Google Cloud Platform - Completed foundational cloud computing and deployment training

MERN Stack Development - Hands-on expertise in building full-stack applications with MongoDB, Express, React, Node.js
